WORK

Freelance Web Developer

10/2021 - current / Remote
https://michaelgrigsby.com
    -Created responsive UX with flexbox and grid for dynamic website designed mobile-first
    -Built & deployed from scratch with html5, scss, javascript and illustrator to push sales and theme
    -Javascript Intersection Observer and modals incorporated for better UX

Culinary work experience (2010-2021)

Private Chef 1/2021 - 10/2021
Sparrow Bakery - Baker/Mixer 12/2019 - 12/2020
Call - Executive Sous Chef 07/2018 - 10/2019
    -Worked my way up from dishwasher to sous chef in multiple fine dining restaurants over a 12 year career
    -Managed multiple teams of upwards of 6 employees, actively and flexibly communicating with front and back of house
    -Efficiency, attention to detail, and meeting deadlines became primary points of focus

PROJECTS

Personal Portfolio

https://jongrigsby.com
    -Designed fully responsive single page application portfolio to showcase UI/UX front-end projects
    -Built using React, MaterialUI, Email.js, React Router
    -Demonstrates strong understanding & proficiency of design principles, javascript, and React

React E-commerce Site

    -Developed book website built with React, Commerce.js, Stripe, MaterialUI, & Routing for SPA
    -Focused on reuseable components, & managed state with multiple side effects
-Incorporated commerce.js for a headless backend, & Stripe API endpoints for checkout UI
-Hosted on Netlify, using Node.js & Github for version control

React Movie Search App

    -Built & deployed with React, Styled, Netlify, APIs, Axios, React Router, Node.js, & Github
    -Managed state, custom hooks, & re-usable components
    -Focused on OOP, asynchronous REST API pulls, DOM manipulation, local storage, & scalability
